

Communications without Frontiers

M50

PTToC Mobile Radio

 Professional for Communication in Vehicles

 Global PTT Service via 2G/3G/4G/Wi-Fi Network

 Easy-to-deploy & Easy-to-expand Network

 Large Coverage & Less Limit in Capacity

Highlights

Compact design, easy to install

Compact design, support installation with different accessories.

Global PTT service

Users can use PTT service globally via public 2G/3G/4G/Wi-Fi network, it ensures communication anytime and anywhere.

GPS/GLONASS/BDS/A-GPS for more accurate positioning

GPS/GLONASS/BDS ensures accurate positioning outdoors, A-GPS assisted positioning is used indoors more effectively so as to integrate positioning information of public network base stations and vehicle positioning module data to provide base station assisted positioning data.

Various voice and data service

It supports various voice functions such as voice call (all call/group call/private call/call reminder), voice alert (incoming call/outgoing call/talk permit/low power), and duplex call.

Three programmable keys

Three programmable buttons enhance the functional customization and quick operation.

Rich Applications

Wi-Fi and Bluetooth bring more possibilities for extensible third-party applications.

Flexible dispatching service

Combined with the dispatching platform, more dispatching services can be realized, such as stun, kill, revive, lone worker, Geo-fencing.

Specification

General specifications

Network Bands	FDD-LTE: 2/4/5/12/13/14/66/71 WCDMA: Band 2/4/5
SIM Card	1*Micro SIM
Wi-Fi	2.4GHz&5.8GHz
RAM+ROM	1GB+8GB
Operating System	Android 10.0
Working Voltage	13-24V
Dimensions	152.6mm*43.4mm*49mm
Weight	250g
Display	1.77" color display screen, resolution 128*160
Operating Temperature	-20°C ~+ 55°C
Storage Temperature	-40°C ~+ 80°C

Accessories

				
Bracket	Power Cable	Antenna	GPS Antenna	Hand Microphone KME-231
